

### REMARKS

Favorable reconsideration is respectfully requested.

The claims are 13 to 26.

This RCE is presented to insert in main claim 13 a feature inadvertently excluded from the Response dated November 13, 2007, i.e., a gloss level of about 10 to 70 per ASTM D523. It is apparent from the Final Rejection dated December 18, 2007 the Examiner has not given weight to this argument (see page 4, paragraph 3 of the Final Rejection) and, accordingly, favorable reconsideration in view of this feature and the arguments of record is respectfully requested.

No further issues remaining, allowance of this application is respectfully requested.

If the Examiner has any comments or proposals for expediting prosecution, please contact undersigned at the telephone number below.

Respectfully submitted,

Luc MOENS et al.
